

**14.161 Clear Water Discharge** (1) Clear water originating from footing drain tile, roof gutter systems, or surface drainage shall not discharge into the sanitary sewer system. Any person who is found to discharge clear water into the sanitary sewer system shall be fined three hundred dollars for each and every day during which such violation occurs.

(2) Sump Pumps, and Downspouts. Sump pumps shall discharge into the storm sewer. Where a storm sewer system is not available, sump pumps shall discharge away from abutting properties and accumulation in public streets, allies, and sidewalks that would create icing during winter months. Downspouts shall not cause ponding on abutting properties.
